## 2 Accommodation

In addition to a sufficient number of hotel rooms, cheaper quarters (e.g. youth hostel, school accommodation etc.) with e.g. dorms or multi-bed rooms should be made available. The cost of the "cheaper" alternative or respectively of the Accommodation & Food Packages must be negotiated with the IRV and should range within a reasonable price level.

The organiser is responsible and pays for suitable hotel accommodation for the IRV Board members and members of the Technical Commission (for number of IRV personnel see extra Annex "Personnel Requirements").

## 3 Food

The organiser should provide a Full Board Service within the Competition Hall or in close proximity. In combination with the accommodation mentioned above the organiser should offer "Accommodation and Food"-Packages (see also point 2 Accommodation) for the delegations and fans that differ in length and price. The organiser must ensure that the food times are variable enough to match the event schedule.

## 4 Competition Hall

Sports hall or other hall with sprung floor and a PVC or parquet floor surface (Other floor surfaces only after approval by the IRV Competitions Officer). The size of the floor should have a minimum of 27m x 45 m. The hall should have a seating capacity of approximately 600 to 1200 people.

It would be nice to have a separate warm-up hall.

### 4.1 Additional Rooms

- a) Competition Office:  
The local organiser must provide a reasonably sized competition office with tables, chairs, electrical sockets, an **efficient photocopier** (with reserve machine available) and **enough paper** to feed the machine. If possible, there should be direct access from the competition office to the competition hall.

**The competition office and its equipment is solely for the use of the competition committee and those who are handling the competition scores.**

- b) First Aid Room:  
There must be a first aid room with first aid equipment: table, chair, stretcher. The local organiser must have at least two qualified first aid staff (including relevant equipment) on duty during warm-up and competition. The local organiser must make sure that ice bags and similar first aid equipment for immediate use in the sports hall are available at all times.
- c) Changing Rooms competitors:  
There must be separate male/female changing rooms and showers for the competitors.

- d) Changing Rooms judges:  
There should be two changing rooms for the judges
- e) Room for judges and/or competition jury meetings
- f) IRV Meeting Room:  
There should be a meeting room for the IRV Board and Technical Commission

## 4.2 Equipment in the Competition Hall

- a) The following number of chairs and tables must be available for the judges and competition officials.

### Judging panels

- Straight-line with music: 10 seats
- Straight-line without music: 6 seats
- Spiral: 6 seats
- Vault: 6 seats

### Other:

- Competition committee: 4 seats
- Scoring officials: 2 seats
- Competition announcers: 2 seats

The tables and chairs are set up in a row. All the tables must be covered and there should be a 15-20 cm screen at the edge of the table. During the All Around competition the tables for the judging panels are placed alongside the relevant competition area. For the finals (individual and team) the tables are in one long row (see below).

Seen from above:

Seen from the side:

In addition to the above mentioned number of chairs, there must be an extra 10 chairs in reserve (e.g. for the judges at the spiral competition areas).

- b) There must be a multiple electricity source at one end of the row of tables.

- c) There must be a projector with screen to show the scores (or at least scoreboards for each competition area) and information for the spectators. Helpers to operate the scoreboards must be provided by the local organiser.
- d) A good quality microphone/PA system must be available for the **announcer**. Important: It must be possible to hold the opening and closing speeches as well as award ceremonies from the middle of the hall (using an extension cable or **cordless microphone**). There should be at least two microphones in the hall.
- e) There must be a good quality **sound system (computer – mp3 files)** for the marching in music and all competitions with routines to music (straight-line routines/Cyr routines etc.). **Qualified and well instructed helpers to operate the sound system/music must be provided by the local organiser.**
- f) **The competition hall should be suitably decorated/equipped for the occasion, e.g.:**
- Banner with the name of the event
  - Plants
  - Flowers
  - Flags of all participating nations
  - The competition area should be cordoned off from the spectators.
  - For the individual finals there must be a central 'resting area' (chairs, sofa), where the gymnasts go to wait for the score after the end of their routine. This area should be suitably decorated (e.g. flowers, plants, name of the event, IRV logo, space for sponsors, etc ...).
  - A plan for the competition areas will be provided by the IRV Competitions Officer.
  - The wheels should not be in the competition hall during the competition.
  - If there is no warm-up gym (or similar) or suitable apparatus store rooms, the wheels must be kept behind a screen, curtain or similar.
  - If possible, participants should be able to warm up in a separate sports hall. If this is not possible, the warm-up area must also be screened off from the competition area (see previous point).
  - There must be sufficient seating available for the participants and their coaches/delegation leaders.

### 4.3 Competition Areas

#### Measurements

The width of the tape belongs to the competition area or safety zone.

Straight-line:	competition area	=		3m x 23m
	safety zone	=	max	7m x 27m
			min	5m x 25m
Spiral/Cyr:	competition area	=		13.5m x 13.5m
	safety zone	=	max	17.5m x 17.5m
			min	15.5m x 15.5m

Vault:	competition area	=		3m x 23m
	safety zone	=	max	7m x 23m
			min	

In case the designated sports hall for an international competition is not large enough to mark all safety zones according to the maximum sizes, the **safety zones** can be reduced to the above-mentioned minimum sizes. **This must be negotiated with the IRV and must not be decided by the local organiser independently.**

#### Preparation of the competition areas

The IRV Competitions Officer decides the number and spacing of the competition areas in the competition hall. **The local organiser will then prepare the competition areas.** These will be inspected and approved by the Competitions Officer before the beginning of the competition. The competition areas and safety zones will be marked with tape such that they are easily distinguishable from the rest of the markings in the competition hall.

The marking of the competition area and the marking of the safety zone should be done in different colours. The minimum width for marking is **10 cm**.

**Applying, changing and removing the tape is the sole responsibility of the local organiser. Any costs related to a damage of the floor caused by persons who independently and not at the local organiser's command change or remove the tape will be chargeable to the perpetrator.**

## 5 Wheels and other Apparatus

- a) The local organiser is responsible for providing a sufficient number of normalised wheels. The following sizes and numbers are usually needed:

1,80m = 1x	1,85m = 1x	1,90m = 2x	1,95m = 2x	2,00m = 3x
2,05m = 3x	2,10m = 3x	2,15m = 3x	2,20m = 3x	2,25m = 3x
2,30m = 3x	2,35m = 2x	2,40m = 2x	2,45m = 1x (if possible)	

The exact number and sizes of wheels needed will be communicated to the local organiser by the IRV Competitions Officer immediately after the registration deadline.

- b) Participants are only permitted to use their own wheels in competition after consultation with the IRV Competitions Officer.
- c) In addition to the wheels, **two identical vault stations** and **mats for dismount straight-line** are needed for training and competition.

**Two identical vault stations** → **each vault station** consists of

- two **crash mats** (these **must not be trodden through**) not smaller than 3,00m x 1,80m - 2,00m x 0,30m - 0,40m (length x width x height)
- for example [Soft Mat 300x200x30 cm | from SPIETH Gymnastics \(spieth-gymnastics.com\)](https://www.spieth-gymnastics.com/)

- or [Sprungkissen "Sport" 300 x 180 x 40 cm - Alder + Eisenhut \(alder-eisenhut.ch\)](#)
- two to four **landing mats** (these **must not be trodden through**) - if possible same size as crash mats - 2,00m – 3,00m x 1,80m – 2,00m x 0,10m – 0,20m (length x width x height)
- for example [Landing Mat "Happy Landing" 2x2m | SPIETH Gymnastics \(spieth-gymnastics.com\)](#) or [Sport-Thieme Niedersprungmatte "Wettkampf" kaufen - Sport-Thieme](#) or [Competition Landing Mat "Basic" 300x200cm | SPIETH Gymnastics \(spieth-gymnastics.com\)](#)

Two to four **mats for dismount straight-line**

- mats must be in good condition
- 2,00m x 1,00m – 1,50m x 0,10m – 0,20m (length x width x height)
- for example [TEAM Landing mat blue 12cm & Velcro Velcro \(benz-sport.de\)](#) or [Niedersprungmatte "Supra Plus 16 cm" - Alder + Eisenhut \(alder-eisenhut.ch\)](#)

All designated mats must be specified (photo + dimensions/measurements) and approved by the IRV Competition Officer (at least 3 months ahead of competition).

- d) If the local organiser borrows wheels (e.g. from other clubs), it is recommended to take out a third party insurance or to check that the club insurance will cover possible damage to the apparatus.
- e) The local organiser will be informed if there is a need for other apparatus (in addition to wheels and crash mats).
